**Subject:** Our economy depends on the river

Hi, I am in favor of an healthy environment and clean rivers. However, I also believe we should ensure we do not do unnecessary damage to those who utilize the river for business purposes in the process of cleaning up age old issues. Lets use intellegence properly to achieve our combined goals.

I work for Ash Grove Cement Company, we as employees and other businesses have strong concerns that EPA has underestimated both the cost of the project and length of time to complete it. Additionally, I believe EPA is basing these decisions on old data when new, more precise data also is available for consideration. Please reevaluate this plan.

Sincerely,

(b) (6)
